

Lectori Salutem !

First of all, as Rector of “Petru Maior” University, the co-organizer of the International Conference “Liability for Democracy”, I'd like to warmly welcome all the participants.

„Petru Maior” University of Tîrgu Mureş, the host of this particular event, is permanently changing and gaining new valences. Our specializations, assets, human resources and research grants are all in an upward dynamics, which proves that we are on the right track and also gives us the certainty of our continued existence as an institution with clearly defined and completely assumed missions.

The fact that this conference is organized proves once again how important it is for us to consolidate our cooperation with other universities and institutions of research from our country and from abroad.

The Faculty of Economics, Law and Administrative Sciences, the Department of Law and Public Administration organized since 2004 many conferences. These events attract internationally recognized researchers from around the world and create a favorable environment for partnerships and enhance the name and recognition of our university.

My personal respect and thanks goes out to all of you. I would like to thank each of you for attending our Conference and bringing your expertise to our gathering.

The organizing committee also hopes that all participants will enjoy the hospitality of our university and will take pleasure in visiting our town and its surroundings.

I wish to express my hope that this scientific event will take place under the most favorable auspices and that it will represent a remarkable starting point for further evolution and development in the field of knowledge. Let this international conference provide a good opportunity for us to gain and transfer knowledge, to generate new theories in the world of science – essential aspirations of any contemporary research.

Last but not least, I would like to give thanks to all those who contributed to our conference.

Călin ENĂCHESCU

The Juridical Current Journal

From the very beginning, the scientific journal has aimed to publish national and international law related articles and jurisprudence analyses, to facilitate the understanding of the European institutional systems and their decisions, and to provide information about the European litigations and the major problems raised by our country's integration.

Our journal has collaboration with authors from various countries of the world, including notable contributions from Romanian professors, law practitioners, as well PhD students. Our aim is not only to approach novelty in the classical domains but also to reveal the interdisciplinary relations between law disciplines and other domains (medical law, legal statistics, nutrition law, juridical management, management of public administration, industrial relations, criminal business law, European taxation, etc.).

Our journal aims to become a forum for debates on theoretical issues, to become a support for law practitioners and to stimulate research on a regional, national and international level.

This journal provides open access to its content, based on the principle that makes research freely available to the public, supporting a greater global exchange of knowledge.

The "Juridical Current" journal has been published quarterly since 1997 in printed and online version in Romanian, English and French.
